

*It's a good seal from the first breath!*

# Cannulaide®

for Kinder, Gentler,  
More Successful nCPAP

*It's all about the babies®*

## Cannulaide®:

- Provides a consistent seal aiding in continuous progressive recruitment of alveoli
- Maintains seal during patient movements
- Secures prongs in place with gentle hydrocolloid adhesive and soft, low-profile Velcro®
- Allows prongs to be removed for inspection
- Helps protect nasal mucosa by suspending prongs in nares
- Helps prevent damage to nasal septum by keeping cannula barrel away from baby's skin
- Reduces need to upsize prongs due to leaks
